Psychology-Specific User Experience

- Intuitive, visual, and easy to navigate
- Over 1000 Topic Pages grouped into 6 classes aligned to the most common areas of study and research
- Topic Pages bring together a top-level overview with a curated selection of articles, videos, books and more in one place
- Customers who also subscribe to ProQuest APA products will see their APA content seamlessly integrated into ProQuest One Psychology

Example: Anxiety is just one of the 'Presenting Issues' Topic Pages

Topic Pages

Topic Pages provide students with a one-stop-shop view of a topic and help faculty develop course content for assignments and discussion. There are six classes of Topic Pages aligned to the most common areas of study and research:

PRESENTING ISSUES

Commonly presented issues such as anxiety, depression, and panic

THERAPEUTIC APPROACHES

The therapeutic treatments of psychological conditions such as cognitive behavioral therapy, and relaxation strategies

RESEARCH CONCEPTS

The essential research concepts, methodologies, and statistical approaches students will use as their studies and research progress.

FEATURED TOPICS

Pages for over 1000 common concepts in the field such as clinical psychology, cognition, and personality

HISTORICAL PSYCHOLOGICAL EXPERIMENTS

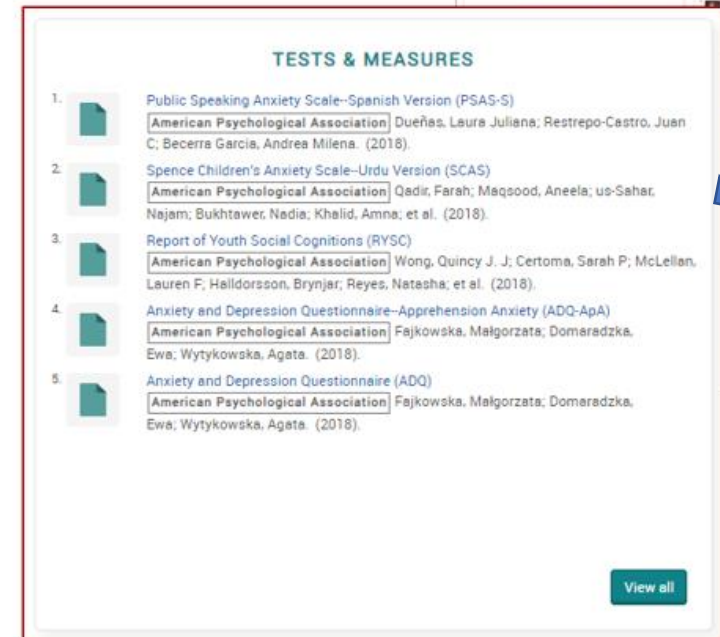

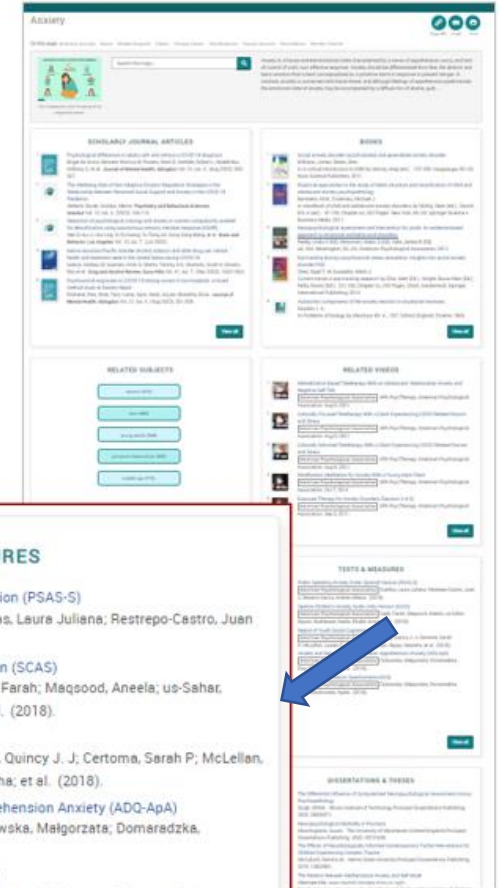

Well-known experiments from throughout history such as the Stanford Prison Experiment and Behavioral Study of Obedience by Stanley Milgram

TESTS & MEASURES

Tests used to measure conditions and how to interpret their outcomes. Examples include Neuro-QoL™ Adult and Pediatric Measures, and PROMIS® (Patient-Reported Outcomes Measurement Information System)

Seamless Integration with American Psychological Association (APA) Products

- Customers who subscribe to APA products on ProQuest will see content integrated into ProQuest One Psychology
- APA results appear clearly marked in search results
- APA full-text and video content incorporated into Topic Pages
- APA subscribers have access to the APA Thesaurus and Advanced Search functionality within ProQuest One Psychology
- The combination of trusted APA databases with ProQuest One Psychology provides a single solution for research and learning
